Request for Street Light -

Director Norton received an email from Ms. Arifi requesting a street light at the intersection of Anawan Avenue and Straits Turnpike/Route 63 based on her concerns for public safety. After doing research on who holds jurisdiction re: street lights on Straits Turnpike/Route 63 because Route 63 is a State Highway, Director Norton determined that the Town has jurisdiction over street lights. Director Norton determined that this intersection fit all the requirements for a street light and communicated his findings and plans to erect a street light at said intersection to Commissioner Smith in late December. Ms. Arifi stated that she had not received notification of the decision to approve a street light. Commissioner Smith offered his apologies and explained that she had not yet received notification of the decision due to the timing with the holidays and the DPW's winter schedule. He stated that he will cc Ms. Arifi on all future communications re: the installation of the street light at the intersection of Anawan Avenue and Straits Turnpike/Route 63.
